## Whole Numbers as Fractions

In this worksheet, we will practice renaming whole numbers as fractions.

For example,  $8 = 8/1 = 16/2 = 80/10$

We will also practice this in reverse, for example,  $15/3 = 5$

### Exercise Questions:

1.  $9 = 18/$ \_\_\_

6.  $27/3 =$ \_\_\_

2.  $2 =$ \_\_\_/4

7.  $125/5 =$ \_\_\_

3.  $6 = 60/$ \_\_\_

8.  $45/15 =$ \_\_\_

4.  $7 = 49/$ \_\_\_

9.  $144/12 =$ \_\_\_

5.  $4 =$ \_\_\_/25

10.  $60/12 =$ \_\_\_

## Whole Numbers as Fractions

In this worksheet, we will practice renaming whole numbers as fractions.

For example,  $8 = 8/1 = 16/2 = 80/10$

We will also practice this in reverse, for example,  $15/3 = 5$

### Answer Key:

1.  $9 = 18/\underline{2}$

6.  $27/3 = \underline{9}$

2.  $2 = \underline{8}/4$

7.  $125/5 = \underline{25}$

3.  $6 = 60/\underline{10}$

8.  $45/15 = \underline{3}$

4.  $7 = 49/\underline{7}$

9.  $144/12 = \underline{12}$

5.  $4 = \underline{100}/25$

10.  $60/12 = \underline{5}$
