Fact Families: Who Belongs?

A Fact Family is a group of numbers that show a relationship between addition and subtraction. All the numbers that make up a fact family are related in some way.

For example: 5, 6, and 11 are a fact family.

 5 + 6= 11   6 + 5= 11   11 - 6 = 5   11 - 5 = 6.

Circle the group of numbers in each box that <u>does not</u> represent a Fact Family:

4, 3, 7	6, 1, 3	6, 2, 8
1, 8, 9	2, 3, 1	7, 4, 2
5, 4, 7	5, 3, 2	9, 7, 2
9, 3, 6	7, 9, 3	4, 2, 6

Fact Families: Who Belongs?

Answers

Circle the group of numbers in each box that does not represent a Fact Family:

4, 3, 7	(6, 1, 3)	6, 2, 8
1, 8, 9	2, 3, 1	(7, 4, 2)
(5, 4, 7)	5, 3, 2	9, 7, 2
9, 3, 6	(7, 9, 3)	4, 2, 6
