Three Addends Addition Word Problems

Solve the following word problems. When solving word problems, if you come across the words "all together" you will use addition to solve the problem.

Answer Key

Matt has 6 blue pens, 2 red pens, and 8 black pens. How many pens does Matt have all together?

$6 + 2 + 8 = 16$ Matt has 16 pens all together.

Mom has 4 white scarfs, 4 brown scarfs, and 2 green scarfs. How many scarfs does mom have all together?

$4 + 4 + 2 = 10$ Mom has 10 scarfs all together.

Kate has 5 dolls with red hair, 4 dolls with black hair, and 3 dolls with brown hair. How many dolls does Kate have all together?

$5 + 4 + 3 = 12$ Kate has 12 dolls all together.
