

Name _____

Date _____

Skip Counting by 5's

Many objects come in pairs. Eyes, hands, shoes and socks are all examples. A pair is two of something. When you count by twos you are skip counting. When you skip count, you can count forward or backwards with multiples. Being able to skip count will help you when you begin to learn multiplication facts. When you skip count by fives for instance, you are also counting by the multiples of fives. If you are successful with skip counting, you will already know that 5×3 is just like 5 counted 3 times equaling 15.

Skip Count by 5's to fill in the blanks below:

5, _____, _____, _____, _____, _____, 35, _____, _____, 50

80, _____, _____, _____, _____, 105, _____, _____, _____
