More Grade 2 Subtraction Word Problems

Subtraction is the operation that gives the difference between two or more numbers. Subtraction can also be used to compare two (or more) numbers. Like addition, a subtraction problem can be set up horizontally or vertically.

Solve these word problems using subtraction:

Kim and Vanessa made 61 necklaces. The girls sold 22 necklaces to their classmates. How many necklaces do Kim and Vanessa have left?

_____

Linda takes $80 from her bank to spend on groceries. If Linda spends $44 on steak, how much money will she have left for the rest of her groceries?

_____

There are 52 red pens in a box. Mrs. Johnson gave all 28 students a red pen from the box. How many red pens are left in the box?

_____

Answers

Kim and Vanessa made 61 necklaces. The girls sold 22 necklaces to their classmates. How many necklaces do Kim and Vanessa have left?

61 - 22 = 39   Kim and Vanessa have 39 necklaces left.

Linda takes $80 from her bank to spend on groceries. If Linda spends $42 on steak, how much money will she have left for the rest of her groceries?

80 - 44 = 36   Linda has $36 left for her groceries.

There are 52 red pens in a box. Mrs. Johnson gave all 28 students a red pen from the box. How many red pens are left in the box?

52 - 28 = 24   There are 24 red pens left in the box.
