Snowman Bulletin Board

Mr. Stanton has twenty-seven students in his classroom. Each student made a snowman. Mr. Stanton says he will put all of the snowmen on the bulletin board in the cafeteria. Mr. Stanton will put nine snowmen in each of three rows. Will Mr. Stanton have enough room for all twenty-seven snowmen? Show and tell how you know using illustrations and/or charts to help you solve the problem.

Will Mr. Stanton have enough room for all twenty-seven snowmen? _____
