## Counting Trucks

Sam loves trucks. Sam starts to count how many trucks he sees every day. On the first day, Sam sees nine trucks. The second day Sam sees eleven trucks. The third day Sam sees eight trucks. The fourth day Sam sees ten trucks. Sam has been keeping a running total of all the trucks he saw on all days. On which day is the running total more than thirty-one trucks? Show all of your work. Use illustrations and/or charts to help you solve the problem.

On which day is the running total more than thirty-one trucks? \_\_\_\_\_
