## Multiplication and Division

```
In this worksheet, we will practice solving multiplication and division problems. You will see
multiplication and division problems written horizontally, like this : 5 > 5=? and 45\div5=?
You will also see division problems written like this: 4\longdiv{40}
You will also see a couple of multiplication word problems, like this:
Marcus has 2 bags of 4 oranges each. How many total oranges does he have?
Marcus has 2\times4 oranges, a total of 8 oranges.
```

## Exercise Questions:

1. 

$12 \times 6=$ $\qquad$
2.
$9 \times 6=$ $\qquad$
3.
$56 \div 7=$ $\qquad$
4.
$63 \div 9=$ $\qquad$
5.
15) 60
6.
8) 72

Ernest has $\qquad$ marbles.
7. Amelia has three shelves of dolls. There are six dolls on each shelf. How many total dolls does she have?

Amelia has $\qquad$ dolls.
8. Ernest has four bags of marbles. Each bag has 20 marbles in it. How many total marbles does he have?
$\qquad$ marbles.

## Answer Key

## Multiplication and Division

In this worksheet, we will practice solving multiplication and division problems. You will see multiplication and division problems written horizontally, like this : $5 \times 5=$ ? and $45 \div 5=$ ?

You will also see division problems written like this: $4 \longdiv { 4 0 }$

You will also see a couple of multiplication word problems, like this:
Marcus has 2 bags of 4 oranges each. How many total oranges does he have?
Marcus has $2 \times 4$ oranges, a total of 8 oranges.

## Exercise Questions:

1. 

$12 \times 6=-72 \_$
2.
$9 \times 6=$ $\qquad$
3.
$56 \div 7=$ $\qquad$
$56 \div 7=-8$
4.
$63 \div 9=$ $\qquad$
Amelia has ___ 18_dolls.
8. Ernest has four bags of marbles. Each bag has 20 marbles in it. How many total marbles does he have?
7. Amelia has three shelves of dolls. There are six dolls on each shelf. How many total dolls does she have?
ancuan

## Ernest has __80_ marbles.

5. -4
15) 60
6. $\qquad$
$8) 72$
