## Division as the Opposite of Multiplication

Complete the problems below by filling in the blanks. Make sure you double-check your answers!

$$3 \times \underline{\quad} = 27$$

$$27 \div 3 = \underline{\quad}$$

$$9 \times \underline{\quad} = 45$$

$$45 \div 9 = \underline{\quad}$$

$$8 \times \underline{\quad} = 64$$

$$64 \div 8 = \underline{\quad}$$

$$5 \times \underline{\quad} = 35$$

$$35 \div 5 = \underline{\quad}$$

$$9 \times \underline{\quad} = 81$$

$$81 \div 9 = \underline{\quad}$$

$$4 \times \underline{\quad} = 24$$

$$24 \div 4 = \underline{\quad}$$

$$10 \times \underline{\quad} = 100$$

$$100 \div 10 = \underline{\quad}$$

$$2 \times \underline{\quad} = 48$$

$$48 \div 2 = \underline{\quad}$$

## Division as the Opposite of Multiplication

Complete the problems below by filling in the blanks. Make sure you double-check your answers!

$$3 \times \underline{9} = 27$$

$$27 \div 3 = \underline{9}$$

$$9 \times \underline{5} = 45$$

$$45 \div 9 = \underline{5}$$

$$8 \times \underline{8} = 64$$

$$64 \div 8 = \underline{8}$$

$$5 \times \underline{7} = 35$$

$$35 \div 5 = \underline{7}$$

$$9 \times \underline{9} = 81$$

$$81 \div 9 = \underline{9}$$

$$4 \times \underline{6} = 24$$

$$24 \div 4 = \underline{6}$$

$$10 \times \underline{10} = 100$$

$$100 \div 10 = \underline{10}$$

$$2 \times \underline{24} = 48$$

$$48 \div 2 = \underline{24}$$
